*Site Safety Professional, ABC Corp, Aug. 2008 - Feb. 2009*  
*Project Safety Manager, BBB Builders, Camp Villere National Guard, Feb. 2007 - Aug. 2008*  
*Senior Safety Technician, XYZ, Sept. 2005 - Nov. 2006*

- Provided safety and occupational health management support including surveillance, inspection, accident investigation and safety consultation for:
  - ❖ Three (3) school construction projects in the New Orleans area.
  - ❖ Construction of a 27,100 SF Field Maintenance Shop facility for the Louisiana Army National Guard; project completed with 100, 000 man-hours worked with no recordable accidents.
- Crafted and suggested safety and occupational health policy to higher levels of management; developed standards and practices to eradicate/control prospective dangers.
- Enforced health and safety requirements applicable to Phillips & Jordan contractors during Hurricane Katrina/Rita clean-up; oversaw house demolitions, supervised safety technicians, and interfaced with contractor management and the Army Corps of Engineers.
- Attended weekly status meeting with project manager, superintendents, subcontractors, building architects, and project principals; shared safety requirements and discussed upcoming job safety concerns.
- Accompanied Orleans School Board and National Guard safety support contractor, Jacobs Engineering, on monthly safety job inspections.
- Led job specific safety orientations to all new workers/subcontractors.
- Imposed safety requirements specified in National Guard contract as well as those applicable in OSHA 1910/1926, NFPA and U.S. ARMY CORPS OF ENGINEERS (USACE) EM 385-1-1.
- Executed safety training, field surveillance/inspections, and accident/incident investigations.

#### Key Accomplishments:

- Recipient, Safety Award Certificate, Louisiana Army National Guard, 2007.
- Promoted from Safety Technician to Senior Safety Technician, 2006.

**PROFESSIONAL EXPERIENCE (CONTINUED)****Dollar Casino/Money Entertainment, Inc.    New Orleans, LA****Oct. 2003 - Jun. 2005****Safety Coordinator**

- Managed the Safety and Health program.
- Reviewed, maintained, and imposed current health and safety requirements derived from applicable federal, state, and local laws and regulations.
- Assisted Corporate Risk/Claims personnel in injury claim investigations and verification.
- Conducted safety inspections and investigated incidents/accidents.
- Served as Chairman of the Monthly Safety Committee consisting of management representatives from all departments; evaluated performance and safety issues.
- Implemented safety training programs on specific topics including lockout/tagout, bloodborne pathogens, hazard communication, confined space; conducted safety orientation for all new hires.

**Key Accomplishments:**

- Awarded, Certificate of Excellence for Outstanding Performance and Lasting Contribution, 2005.
- Reduced employee injuries by 18% through proactive education and training, 2004.

**Lockheed Martin Space Systems Company    New Orleans, LA****Aug. 1981 - Aug. 2003****Senior Safety Engineer/Senior Industrial Hygienist****NASA Space Shuttle External Tank Project/NASA Michoud Assembly Facility**

- Analyzed, created, sustained, and enforced procedures derived from applicable federal, state, and local laws and regulations including personal protective equipment, hearing conservation, bloodborne pathogens, breathing air certification, hazardous material and chemicals control.
- Contributed ideas to new and existing programs which decreased the rate of recurrence and severity of accidents.
- Proposed and amended safety and environmental practices to control/eliminate hazards; inspected and identified potential new hazards in various work areas; investigated accidents, incidents, and near misses.
- Served as the On-Scene Incident Commander during hazardous material/waste emergencies.
- Assessed and approved test, maintenance, transportation, and other work documentation.
- Reduced the potential for injuries and property damage through timely identification and effective correction of unsafe acts and conditions by site inspections, monitoring, and surveillance activities.
- Enforced safety requirements and procedures including energy lockout/tagout, confined space entry, personal protective equipment; issued citations when necessary and resolved with appropriate department personnel.
- Conducted crew briefings and disseminated safety performance statistics and trends.
- Provided technical assistance to employees including other Safety personnel, tenants (US Department of Agriculture, University of New Orleans) and subcontract personnel.
- Monitored Environmental programs from a safety stand point including storage areas of hazardous waste and environmental projects.
- Accompanied Environmental Department employees on off-site inspections of hazardous waste disposal facilities used by Lockheed Martin.

**Key Accomplishments:**

- Recipient, Team Excellence Award for technical contribution to the Ergonomics common program, 2003.
- Appointed Representative for Michoud Operations Ergonomic Policy Team, 2002.
- Honoree, Conference Committee Award, 12th International System Safety Conference, 1994.
- Registered with State of Louisiana as Primary Hazardous Waste Emergency Coordinator for NASA Michoud Assembly Facility.
- Accompanied NASA and Lockheed Martin corporate personnel during audit reviews.
- Consistently achieved results that exceeded key performance objectives.
